

# Corporate Partner Guide

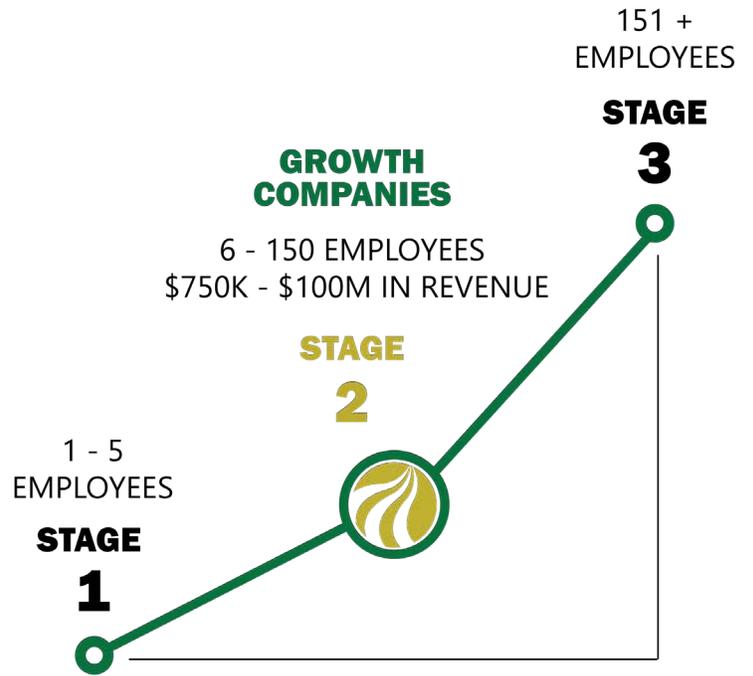

Connect. Community. Growth.

Become involved in Florida's only organization focused exclusively on second-stage growth companies.

# ABOUT GROWFL

GrowFL, Inc. is a non-profit 501(c)3 organization uniquely and exclusively dedicated to support and accelerate the growth of second-stage companies located in Florida. GrowFL provides the leaders of second-stage companies with focused, efficient, and timely access to resources they deem important. GrowFL is focused on the leaders of second-stage growth companies. The programs are designed to provide resources and connectivity that help the leaders achieve continued growth and prosperity.

Second-stage growth companies have at least 6 employees and \$750 thousand in revenue and possess the intent and desire to grow beyond second-stage. They are a small, but mighty group of entrepreneurial leaders in Florida, accounting for just 10-percent the companies, but generating more than 30-percent of the jobs.

**Unleashing a spirit of entrepreneurship** can happen anywhere, but it doesn't typically happen by accident. It requires a specific environment where innovation, collaboration, cooperation, and regionally based support systems are aligned to create the synergy that makes an impact on the economy. A successful and continually evolving entrepreneurial ecosystem requires integrated components, a commitment by community leadership and individual champions, and a full continuum of entrepreneurial support services and organizations to move new ventures from the idea stage into business maturity. GrowFL spurs job creation by helping entrepreneurs take their companies to the next level of growth.

# SERVING SECOND-STAGE COMPANIES WITH SERVICES THAT ARE CATERED TO THEIR NEEDS

With greater experience and financial bandwidth, second-stage entrepreneurs are more confident and adept at risk-taking than startups. They can expand into new markets and introduce innovations that impact their industries. Their stability and broader resources enable them to offer more diverse, high-quality jobs and provide better benefits for employees. Based on these traits, GrowFL has built a suite of programs and services designed to help accelerate the growth second-stage companies and provide their leaders with strategic information they can use immediately. Survey data shows that GrowFL assisted companies grow three times faster than their industry peers and five times faster than all Florida companies.

## MISSION, VISION & IMPACT

**Vision:** To be the preeminent resource and collaborative organization for Florida's second-stage companies and their leaders.

**Mission:** Provide timely and focused strategies, resources, and support to encourage accelerated next-level growth for Florida's second-stage companies.

A Florida Tax Watch REMI analysis was completed to determine GrowFL's economic impact between 2018 and 2027. The analysis concluded that continued investment in GrowFL will:

Generate \$4.72 billion in additional Gross Domestic Product (GDP).

Create 43,794 private sector, non-farm jobs statewide, with an average annual salary of \$97,815.

Produce \$4.61 billion in additional personal income for Floridians.

*"We turned to GrowFL because we wanted to diversify away from government contracting, as budget cycles tend to be subject to the political environment and their product life cycles are long. We now have the data to transition our company and implement an entirely new sales strategy."*

The Edward Lowe Foundation has been a valuable GrowFL partner for over a decade, helping to develop various programs for the advancement of second-stage businesses. Ed Lowe often talked about breaking down brick walls — challenges that stood in his way while growing his company. As the inventor of Kitty Litter, the country's first cat-box-filler, Ed created not merely a new product but an entirely new industry. Together with his wife, Darlene, Ed launched the Edward Lowe Foundation in 1985 to help future generations of entrepreneurs, providing them greater support and resources. GrowFL partners with the Edward Lowe Foundation on several programs including the System for Integrated Growth, GrowFL Florida Companies to Watch, CEO Roundtables, and the American Academy of Entrepreneurs.

*"GrowFL is a pioneer in offering critical resources to second-stage entrepreneurs. They are setting an example of how supporting the growth of this powerful group of business owners is essential for the growth of the economy. It is truly rewarding to see how our work is having a significant impact on Florida's CEOs through GrowFL."*

The goal is to provide CEOs with Fortune 500-level data, information, and best practices that many times may be too costly to access on their own.

[www.GrowFL.com/sig](http://www.GrowFL.com/sig)

### LEADERSHIP INSTITUTES

Entrepreneurs share experiences with other leaders, as well as gain insights into tangible best practices that they can begin to use immediately. The goal is to provide invaluable resources and information to help CEOs continue to make solid decisions based on what they have learned.

[www.GrowFL.com/leadership](http://www.GrowFL.com/leadership)

### CEO ROUNDTABLES

Structured in-person monthly sessions, the CEO Roundtable program bring together 12-15 entrepreneurs that help to shed new light on both problems and opportunities. The goal is to connect peers in a safe learning environment that allows CEOs to better manage their companies.

[www.GrowFL.com/roundtables](http://www.GrowFL.com/roundtables)

## CEO COMMUNITY PROGRAMS

More than 500 companies have received this recognition.

[www.GrowFL.com/flctw](http://www.GrowFL.com/flctw)

### CEO ACADEMY

Chief executives, presidents, and business owners of second-stage growth companies realize that one of the best ways to strengthen their own performance and ensure strong succession planning is to sit down from time to time with some of the best like-minded business owners to learn more about their leadership practices and experience. This can be vital for not only themselves but also their potential successors. The CEO Academy is a 10-program best practices series bringing together leaders of second-stage growth companies to learn from each other, and from experts in a variety of business areas.

### LEADER RETREATS

Held at Big Rock Valley (BRV) at the Edward Lowe Foundation and are a series of educational programs for second-stage entrepreneurs and Advisory Board members. Sessions are highly interactive, and curriculum is designed to be a continuum. Each course stands on its own while building upon previous content. Yet there is no cookie-cutter format; retreat curriculum will vary depending upon each group's needs.

## CEO CONNECTIVITY PROGRAMS

GrowFL understands that for many second-stage CEOs and entrepreneurs, it is lonely at the top. Knowing that, we launched our CEO Connectivity programs to give them opportunities to foster long-lasting personal and professional relationships. We are committed to connecting Florida's entrepreneurs on a regional and statewide level.

### MEMBERSHIP PROGRAM
