

ALKIS CRASSAS

Professional EOS Implementer®

As a Professional EOS Implementer, I act as a teacher, coach, and facilitator — helping business leaders transform their companies and, ultimately, their lives.

The Entrepreneurial Operating System® (EOS®) is a comprehensive business operating system that aligns and synchronizes all of the parts of the business. Using a proven process that has been implemented in tens of thousands of companies around the world, I help leadership teams crystallize their **vision**, gain **traction** by instilling discipline and accountability, and function as a more **healthy** and cohesive team.

Who I Love to Help

Business Type	Privately held, Tampa Bay based businesses with 10-250 employees .
Industry	EOS is designed to work in any industry. We have implemented EOS with a wide variety of companies in manufacturing, construction, technology, retail, hospitality, marketing, professional services, and even non-profits.
Challenges	The leaders/CEOs/founders I typically work with are frustrated — by a lack of growth, people, profit, and/or a lack of control. Many times, they feel like the business is running them , feel stuck, and they don't know how to fix it.
Leadership Mindset	I only work with entrepreneurial leadership teams that are open minded , respectful, appreciative, growth oriented , frustrated, and want help. Teams that are willing to be open, honest, and vulnerable in the pursuit of taking their company from good to GREAT.

WHERE THE MAGIC HAPPENS

**1810 W Kennedy Blvd
Tampa, FL 33606**

My EOS session room is designed to provide an inspirational space for great off-site EOS planning sessions and leadership transformation.

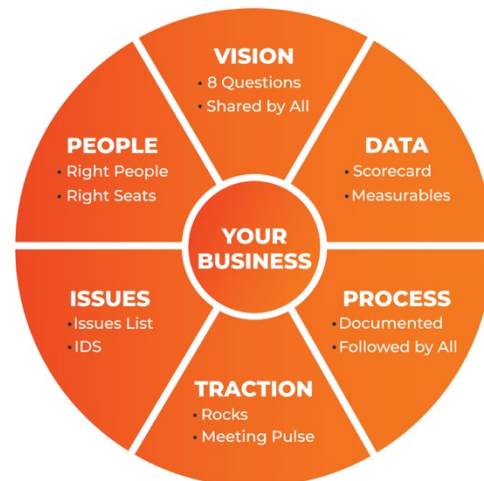

What Is EOS?

The Entrepreneurial Operating System (EOS) is designed to help owners, leaders, and managers of entrepreneurial companies address these common frustrations:

- **Lack of control** — over time, markets, or the company
- **People** — who don't listen, understand, or follow through
- **Profit** — there's not enough of it
- **Growth** — they can't seem to break through to the next level

Using a simple set of powerful, practical tools, leaders learn to run their businesses more efficiently and effectively to experience more consistent growth — and have freedom to pursue other passions. Real. Simple. Results!

3 Ways I Introduce People to EOS

1 Give a free copy of *Traction* by Gino Wickman

I'm happy to mail a hardcover copy of the book to any business owner, CEO, or executive team leader that is looking to grow their organization and achieve their vision.

2 Host an EOS workshop for multiple businesses

I'm available to present an interactive overview of EOS to groups of business leaders and their teams!

3 Do a free 90-minute overview of EOS ... it's like the movie version of the book *Traction*

This meeting is designed to be presented to the leadership team of a single company. During the meeting, I will paint a clear picture of the system to help you and your team decide whether EOS is right for you.
